And Other Itching, Burning, Scaly Eruptions with Loss of Hair.

Speedy Cure Treatment.

Bathe the affected parts with Hot Water and Cuticura Sosp, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Claiment freely, to allay itching, irritation, and inflammation, and soothe and heal, and lastly take Cuticura Resolvent Pills, to cool and cleanse the blood. A single set is often sufficient to cure the most torturing, disfiguring, itching, burning, scaly, pimply humours, eczemas, rashes, arritations, and chaffings, with loss of hair, when all cisc fails.

The agonizing itching and burning of the skin, as in cezema; the fright-ful scaling as in paoriasis; the loss of hair and crusting of the scalp, as in scalled he i; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants and the auxiety of worn-out parents, as in milk const, tetter, and salt rheum, — all demand a remedy of almost superhuman virtues to successfully cope with them. Such are the Cutteura remedies, the purest, awestest, most speedy and economical cutatives for the skin, scalp, and blood ever compounded. Mothers are their warmest friends.

Millions of Women Use Cuticura Soap

Assisted by Cuticum Ornment for preserving, purifying, and beautifying the skin, for cleansing the scaip of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby makes and chafings, in the form of baths for among intitations and inflammations of women; or too free or offensive among intitations and inflammations of women; or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sanative, tantiseptic purposes which readily suggest themselves, as well as for all the purposes of the toilet, bath, and nursery,

CUTICUPA RESOLVENT PILLS (Chocolate Conted) are a new, tasteless, economical substitute for the cele-brated liquid Curicura Resolvent, as well as for all other blood purifiers and humour-cures. Put up in screw-cap packet vials, containing 80 doses.

AND STREET WAR SEARES PEARL

Mr Bernard Shaw, and not the fact that he receipts were to be devoted to the dyanosment of the Labour movement in london, drews large gathering of people to Kensington Town Hall hat night, Dr Fernivall was in the chair and Mr Shaw was announced to lecture on Shakespeare, whom he regards as a serious rival.

Mr Shaw was somewhat deprecatory about his knowledge of Shakespeers. At least, he dmitted that he does not know to much shout him in the classical sense as do Dr. Furnival or Mr Sidney Lee. He, however, possed that he knew as much about him as any man in the street-that is, any man in the street who has road Shakespearsand he proceeded the state, among other

When admirations for the Bible began to wane, the idolatry of Shakespeare began to

People were horrified more at my views on Shakespeare than on religion or sociology 'and

'The only time I was insulted was by the president of a Shakespears Society.

The idulatry of Shakespeare was no new thing; it went on whom Shakespeare was alive. Ben Jonson-who was somewhat surprised that a man like Shakespeare should be so successful-said, I loved the man as well as any short of idolatry: Why, he asked, should he say that? Suppose they went home, and were asked How did you like Bernard Shaw ! they would not say 'I like him all right-short, of idolatry' (laughter). There were people who talked like that (haughter):

Shakuspeare was a vulgar and illiterate man. He was of a respectable class, forhis father had been a bankrupt (laughter). People whose fathers were bankrupts did not hold horses outside threatres, as Shake spears was said to have dong, Shake spears knew all about the middle clargeshe belonged to them. Mr Shaw went on to demonstrate, by references to Professor Hewins, the Tariff Commission, municipal: Socialism, the discovery of America, and various other matter, that Shakespears had been a supercarge on a vessel ebartered by the Carendish family. Be invergised against considering that Shakespeare was dways absolutely right. He, however did not object to Shakespeare giving Buhomia a sea coast. In an earlier play he gave Milan a sea coast. L said Mr. Shaw emphaticulty, would have done the same thing myself it I had wanted a sea ornat at Milan (laughter). Shakespeare came to town and writte

play called Love's Labour Lost, quite & clever Bedford Park sort of play it was full of the sayin sthat a dramatist would put in the mouths of kings and behanded indicatif he were quite ignorant of courts. He sketched our anoof Shakespeart s playe, insisting that he only wrote beesuse his paythers compelled him to write something popular. Like Pilite sushing his Louis, Shakespeare when he had done the PAT . threw it to those who had thus urged him, saying, There it is I as you (laughter). As for Milyium. he said Englishmen forgot that when a Jew makes an agreement he means to keep it, and he expects the Englishman to do the same (laughter). The play was bliefafore charactivistically English; and Antonio ought to be called John Smith or James Broadhurst. Finally, he considered that is was a pity-Shakespeare wrote in bank verse: a cat could write in blank verse. Were he (Mr. Shire) allowed to write in black verse he outld write three in a month. Tho great dang rebout Shakespears was that he had such a gift of language that he fucinated one, and was forgiven a great many things. He. himself, reguled Shakespeare in two ways. One of his Mr Shan's) eyes was the eye of an artist, and the other the eye of a plumber. With one be saw the art, with the other the artifice

DOWIE'S RIVAL IN HAWAII.

Honocutu, April 11. Dowie has a rival or imitator in Hawai in the Rev. J. M. Ezera, for a number of years paster of the native Congregational Church at Ewa, and considered, next to Boy. S. I. Dasha, the most eloquent and influential native pastor in the Islands. Ezera is now the leader of a new cult or sect, the members of which look upon him ! as a reincarnation of Elijah. He claims that the spirit of God is incarnate in him at his will, as are also the apirite of Elij hi and St. Paul. His following is an oathbound organisation, only those being admitted to the deeper mysteries of the cult who have proven faithful in the simpler elements.

Ezora is one of the handsomest Hawaiians in the Islands. Ho is a man of great eloquence in his mative tongue and knows the Scriptures almost by heart. He has been pastor of the Ewa Church, one of the largest native churches in the Islands, for several years. Two years ago he was chaplain of the Senate. Nearly two years ago he lost his wife, the mother of his pine children. Melancholis folls wed this grief, and he to gan to see visions and have epiritualistic visitants, though he remained orthodox in his theology until a few months ago, when he began to develop the doctrines of incarnation in him of some of the worthics of the Old and New Testaments.

His doctrines include the duty of his followers to provide liberally for him, and this they have to far done. He has gathered quite a following about him. Severalof the native churches—smong whose membership he has proached his doctrines-have become

A QUAINT CONGO TRIBE.

The report that the Foreign Office withholds its consent for the proposal to bring a party of Congo pigmies to England, pend. ing a guarantee of their healthy "condition". lends interest to the account of this quaint tribe which (writes a correspondent to the Standard) has been given me by Dr. W. J. Ansorge, who has just returned to this country from his remarkable journey acress

The pigmles, he said, 'inhabit the region between Fort Beni and Avacubl. They are known locally as Wamibuti. Some are much taller than others, but the smallest are absurdly short, not much taller, in fact, than an English child of six BY ORDER OF THE MORTGAGEE. or seven. I did not find them at all shyowing, no doubt, to the fact that white officials of the Congo State are constantly travelling up and down the route.

*At Olinga they performed one of their curious native dances in my presence. The dancers followed each other in a circledest one, two, three steps, and then advancing, and next one, two, three steps without advancing. From time to time the THE VERY VALUABLE women olapped their hands-for they areexpert manuscians-producing a loud. cracking, wooden noise, and seemingly ochstant repetition of "wo, wo, we, we, we, and yo, yo, yo." At Mohalla their songs evidently contained words, and the tune was for from disagreeable.

The typical Wambuti has a receding forehead, bushy eyebrows, and thick pouting lips. Some, however, have a totally different cast of features. This leads me to believe that different tribes are new confounded under the general term of Watebuti. I was assured by several officials that they were cannibals, but if such practices are carried on it is only with the greatest possible estreey. Such of the Wambucias I saw were perfectly friendly indeed, at Moballa they brought me as a present a live antelope."
